

SKILLS

Languages	Python, Javascript, SQL
Geospatial Tools	GDAL/OGR, QGIS, Geoserver
Database Systems	Postgresql/PostGIS, SQLite/Spatialite, Redis
Deployment Tools	Docker, docker-compose, docker swarm, Kubernetes, Vagrant, Puppet
CI/CD	CircleCI, GitHub Actions, Jenkins
Version Control	Git, GitHub, Bitbucket
Task Management	Agile/Kanban, GitHub Projects, JIRA, Trello

PROFESSIONAL EXPERIENCE

Software Developer and Supervisor (Associate Scientist I/II/III) **June 2016–Present**
National Snow and Ice Data Center (NSIDC) *Boulder, CO*

- Develop tools for visualization and analysis of geospatial data.
- Develop operational code for ingest and publication of near-real-time data.
- Collaborate with scientists to implement and operationalize data processing algorithms.
- QA/QC new datasets for archival and distribution.
- Maintain and improve virtual machine and application deployment tools.
- Supervise and mentor 2-4 other developers.

Graduate Teaching and Research Assistant **2014–2016**
University of Nebraska-Lincoln *Lincoln, NE*

- Taught lab sessions for Introductory and Applied Remote Sensing courses.
- Provided research assistance for the Center for Advanced Land Management Information Technologies (CALMIT).

Software Developer (Consultant) **Oct.–Dec. 2015**
Archangel Farm Services *Lincoln, NE*

- Developed a tool to automatically extract regions of aerial imagery delineated by polygons drawn by users in a web-map interface.

Undergraduate Research Assistant **2012–2014**
Center for the Remote Sensing of Ice Sheets (CReSIS) *Lawrence, KS*

- Developed tools to facilitate data access and analysis using MATLAB and Python.
- Created maps using GIS and web-mapping software.
- Participated in L2 and L3 data creation and QA/QC.

EDUCATION

Graduate coursework **2014–2016**
University of Nebraska-Lincoln

- Graduate coursework and research focused on digital image processing and data management

Bachelor of Science in Geography **2010–2014**
University of Kansas

- Emphasis in Geographic Information Science with a minor in Environmental Studies

RECENT ACTIVITIES

- Certified in Adult and Pediatric First Aid/CPR/AED by the American Red Cross. **May 2026**
- Participated in [Connected Data Products Hackdays](#) in Berkeley, CA. **April 2026**
- Attended Greenland Science Week in Nuuk, Greenland. **November 2025**
- Participated in NSIDC's 5-year strategic planning workshop. **Jan. 2025**
- Participated in the NSF National Discovery Cloud for Climate (NDC-C) workshop in San Diego, CA. **March 2024**
- [Interagency Arctic Research Policy Committee \(IARPC\) Collaborations Mentorship Program](#) participant. **Sept. 2023–May 2024**
- Co-organized virtual [QGreenland Researcher Workshop](#) on developing standards-based geospatial data practices. **May 2023**
- Attended the [AITC Mapping the Arctic Conference](#) in Nuuk, Greenland. **April 2023**
- Participated in the 2022 [Greenland natural science data workshop](#). **October 2022**
- Received a [CIRES Outstanding Performance Award](#). **September 2022**
